FUMIGATION CHECKLIST

- All items for human consumption such as foods, beverages and medicines without the original manufacturer's air-tight seal intact must either be double-bagged in Nylofume® bags* or removed from the structure prior to fumigation.
- All food inside the refrigerators and freezers must be double-bagged in Nylofume® bags or removed from the property. If food has not been removed or properly bagged by the time the fumigation crew arrives, there may be an additional charge to bag these items. First Class Fumigation is not liable for replacement costs for any discarded items.
- All mattresses and pillows with WATERPROOF covers MUST either be removed from the structure or covers must be removed. Mattresses and pillows without waterproof covers may remain in the structure. **BABY MATRESSES MUST BE REMOVED.**
- Electricity must be available – it is required to run fans during the fumigation processes.
- Cut back shrubbery and tree branches to prevent damage. Allow enough space for the tent to fall freely to the ground. Tree limbs growing over the roof must be trimmed back.
- Fumigation will be done by industry standards and all possible precautions will be taken to avoid damage; however in certain situations, some damage may occur to roofing (tile, metal old brittle, etc.), awnings, vent caps, spark arrestors, solar panels, patio covers and certain rain gutters. 4 Less Termite, Inc. and First Class Fumigation assume no responsibility for such damages if they occur.
- Antenna and satellite dishes must be removed. If they are not removed by the time the fumigation crew arrives, First Class Fumigation will not remove these items prior to fumigation and will not be liable for misalignment or damage caused after the fumigation is complete.
- Prepare to vacate all people, pets and plants when the fumigation crew arrives, including aquariums.
- Fumigation may need to be re-scheduled to a later date due to high strong winds.
- Swallows often nest under eaves and around buildings. Federal Law prohibits occupied nests from being disturbed. If nests are occupied, we CANNOT proceed until nests have been vacated.
- 4 Less Termite, Inc. and First Class Fumigation do NOT provide on-site security and will not be held responsible for vandalism, theft or breaking and entering. You may hire a security service to be present during the fumigation. 4 Less Termite, Inc. and First Class Fumigation recommend removing valuables from the property (jewelry, art, cash or other items of value) prior to fumigation.
