## GAS SERVICE

### **Gas Customers:**

First Class Fumigation is ONLY responsible to contact PG&E\* to schedule the gas lock (gas turn off) in advance of your scheduled fumigation.

**It is the RESPONSIBILITY of the HOMEOWNER/TENANT to contact PG&E to have gas service restored. PG&E will NOT restore gas service unless someone 18 years or older is present.**

The HOMEOWNER or TENANT must call **PG&E at 1-800-743-5000** to schedule an appointment to have the gas restored and pilot lights re-lit. Restoration of gas service must occur after the structure has been cleared. All structures will be cleared and available to occupy after 5:00pm on the 3<sup>rd</sup> day of the fumigation (for a Monday – Friday clear) and after 1:00pm on the 3<sup>rd</sup> day of the fumigation (for a Saturday clear). PG&E can schedule your gas unlock anytime between 5pm – 8pm Monday-Friday or between 1pm and 5pm on Saturday.

*We recommend calling PG&E no later than 4 days prior to the fumigation. This will help ensure your GAS service will be restored when the home is cleared for entry. If PG&E is contacted fewer than 4 days prior to the fumigation, this may result in a delay of one (1) week in having your gas service restored.*

### **Propane Customers:**

First Class Fumigation will ONLY turn off any propane tanks on the property.

**It is the RESPONSIBILITY of the HOMEOWNER/TENANT to contact the propane provider to have propane service restored.**

### **OWNER/AGENT**
